Experience

RMA/Repair Technician

Vault CPS (formerly Ingram Micro)

October 2023 - Present

- Troubleshooting hardware and software.
- Testing and validating system functionality.
- Analyzing performance trends.
- Applied diagnostic skills that translate directly to debugging and interface testing.

Configuration Technician

Vault CPS (formerly Ingram Micro)

April 2023 - October 2023

- Loaded software onto payment terminals.
- Prepared devices for deployment, including configuration and testing.
- Ensured consistent, reliable device behavior through structured configuration workflows.

Freelance Designer

May 2021 - December 2022

- Created website mock ups aligned with client goals.
- Built or refined color palettes, layouts, and visuals.
- Maintained and updated content for multiple websites.
- Troubleshot functionality and implemented fixes.
- Improved site performance and SEO.

Web Designer

SmartWorld Inc, Shield Nutraceuticals, Mona Lisa's Gelato

2015 - January 2021

- Designed logos, restaurant menus, product labels, and other promotional imagery.
- Updated and maintained content for multiple websites.
- Researched and incorporated solutions to develop a multi-vendor marketplace.
- Cooperated with developers to track down and fix functionality issues.
- Created listings for thousands of products.
